BOBCAT PRIDE!

Credit Union Donates to Greenhouse

Media release

Saco, Maine - November 13, 2013 —

Saco Middle School opened its doors Wednesday evening for a greenhouse open house in the school's cafeteria. The event was hosted to thank the community and to recognize some individuals who have made a difference in this project, including David Shaw, the greenhouse committee's chair, and Sam Blunda, the school's Industrial Technology's teacher.

Also, Saco Valley Credit Union presented a check for \$2500 to help complete the purchase of photovoltaic solar cells, which will offset the electricity used in the final phase of the greenhouse construction.

Attendees enjoyed a presentation and refreshments, followed by tours of the greenhouse.

For further information, please contact the Greenhouse Committee Chair, David Shaw, at dshaw@rsu23.org.
