

# WOW: complex

complex

Definition:

- not simple or easy
- hard or difficult
- made up of many parts

complex

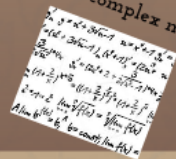

The informational book about the solar system had many complex words which made the book challenging to read.

complex

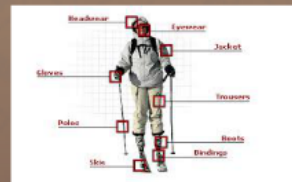

This is simple math.

This is complex math.

complex

Getting dressed for skiing is a complex process!

complex

The design of a spider web is complex.

Getting dressed for skiing is a complex process!

**complex**

The design of a spider web is complex.

complex

The informational book about the solar system had many complex words which made the book challenging to read.

# complex

This is simple math.

This is complex math.

A piece of paper with various mathematical formulas written in black ink, tilted at an angle. The formulas include:  
 $y = u^2 + 3\sqrt{u-1}$   
 $u = x^4 + 1$   
 $y'_x = (2u + 3\sqrt{u-1}) \cdot u'(x^4 + 1)' = (2u + 3\sqrt{u-1}) \cdot 4x^3$   
 $y'_x = (2x^4 + 2 + 2\sqrt{x^4 - 1}) \cdot 4x^3$   
 $\lim_{x \rightarrow a} \sqrt[p]{f(x)} = \sqrt[p]{\lim_{x \rightarrow a} f(x)}$   
 $\lim_{x \rightarrow a} b^{f(x)} = b^A$   
 $b = \text{const}, \lim_{x \rightarrow a} f(x) = A$
